

The WashU Flex MBA: Designed for Working Professionals

The Flex MBA offers a contemporary approach to learning, allowing students to choose between online and on-campus course options. As you learn core MBA fundamentals, you also examine areas of business that are important to you. With electives as half of your credit hours, you can build the Flex MBA any way you like.

I chose the Flex MBA program to open myself to future opportunities professionally and to connect and grow with other professionals.”

Dana Rohlman, Flex MBA, Fall 2024 cohort
Lead Senior Project Engineer,
Boeing
